Writing

I would like to write a review on two hotels in my area "Gloria" and "Kaliningrad".

"Gloria" is situated in Gusev not far from the centre of town. It is both the cafe and hotel so it is beneficial since you don't have to find a place to have a meal. Besides the rooms here are very comfortable though not very big. Moreover it is cheap to stay here. I'd recommend this hotel for those tourists who are just stopping by our town because you don't need much time to see all sights of our town and it is cheap.

Unfortunately I don't know any hotels in my town so I'd recommend a hotel in Kaliningrad. It is called "Kaliningrad hotel". ~~I can't tell exactly how many stars it has but it's more than three.~~ First of all you can have a Swedish table breakfast while you stay here. Then you have bright and comfortable ~~big~~ rooms with a fascinating view. More than that the staff here is always ready to help you. I'd recommend this hotel for people who want to spend their holidays, honeymoon or for those who ~~wants to have~~ <sup>would like to</sup> have some relax and <sup>are</sup> not afraid of spending money.

I recommend both of these hotels. "Gloria" for those who have less time and money and Kaliningrad for those who have a lot of these. Hope my review will be useful.
